

LENA - M

LENA - PM

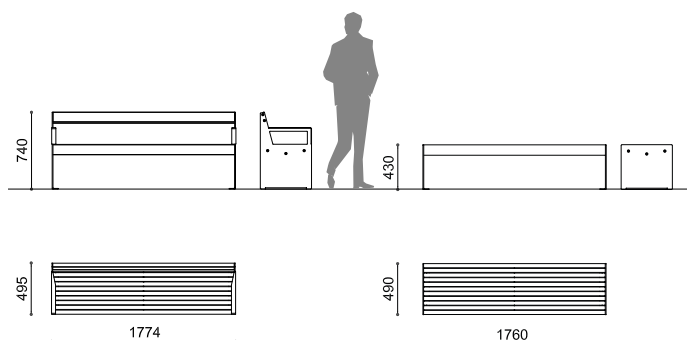

Bench with backrest and armrest or without backrest, composed of two 5mm-thick steel sheet supports, with seat made of 40x20x1.5 mm (top) and 40x100x2 mm (side) steel tubes, with 3 mm thick steel sheet connection brackets.

The 120x40x2 mm tubular steel backrest is fixed directly to the supports.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

Prepared with Ø 12 mm holes at the base for ground fixing with mechanical dowels (not included).
